

# Autowash Tension Reducer

## Prisco

# K-Supply

K-Supply Autowash Tension Reducer is a concentrate, designed to keep the water and reservoir of an automatic blanket and roller wash-up system in optimum condition. Regular use of the product will ensure that an effective and constant supply of water will be available for the wash cycle, for thorough cleaning.

### Benefits

- Reduces maintenance time and promotes faster make-readies.
- Reduces the surface tension of the water and improves the distribution of water onto the blanket. Solvent residue and tough paper deposits will be thoroughly cleaned from blankets and rollers.
- Prevents build-up of algae and calcium deposits in the reservoir, tubes and spray nozzles thus improving water flow.
- Prevents any corrosive action from the water on the press.

### Directions

Add 5 % Autowash Tension Reducer to the water in the water reservoir of a press automatic washing system.

### Specifications

Product name	K-Supply Autowash Tension Reducer by Prisco
Packaging	5 Ltr Bottle 4 x 5 Ltr Bottle per Case

 **Directions for Use:**
