

Fountain Solution QUESTAR CTP 300

Prisco

K-Supply

The K-Supply Fountain Solution QUESTAR CTP 300 is a plate safe IPA-free one-step fountain solution concentrate, designed for use on sheetfed presses, running conventional, UV and H-UV/H-UV L (LED) inks. This product is specially recommended for use with fast-reaction UV and H-UV/H-UV L (LED) inks. It combines the latest innovations in fountain technology in an easy to use concentrate. Fountain Solution QUESTAR CTP 300 has a wide operating window and works well with water of a low- to medium alkalinity level. This product is rewarded with an ISEGA certificate as safe for use on food packaging printing jobs. For power return operated dampening circuits suffering from excessive foam, we recommend using HG46 – QUESTAR CTP 300 LF.

Benefits

- ISEGA Certificate for food packaging printers.
- Produces sharp dots with excellent print quality.
- Wide operating latitude and lower water metering speeds.
- Economical low-dosage formula.
- Prevents plate staining, tinting and toning.
- Effectively eliminates ink build-up on metering rollers.

Directions

Add 3,0 % - 4,5 % Fountain Solution QUESTAR CTP 300 to water to obtain a pH range between 4,4 – 4,9. Once optimum level has been determined, measure conductivity for use as a reference when preparing fresh batches of press-ready fountain solution.

Read MSDS before using this product.

Specifications

Product name	Fountain Solution QUESTAR CTP 300 by Prisco
Application	For conventional, UV and H-UV/H-UV L (LED) printing. Especially suitable for the food packaging industry.
Packaging	25 Ltr Can

Directions for Use:

For details, please refer to the safety data sheet.
