

RO Water Conditioner

K-Supply

K-Supply RO Water Conditioner is an auxiliary medium for offset printing. The pre-buffered concentrate supports the buffer-effect of the fountain solution additive. This product, tested at the Komori Graphic Center-Europe, is highly effective and suitable for all printing presses.

Benefits

- Positive influence on colour/water balance.
- Strong protection against bacterial contamination.

Specifications

Product name	K-Supply RO Water Conditioner
Application	Concentrate for the hardening of desalinated water.
Conductivity	0,5 %: 300 x 320µS
Colour	Neutral, colourless
Density	1,00 kg/l
Flashpoint	> 63 °C
pH-value concentration	0,5 : 5,7 - 5,9
Storage conditions	Use within 6 months. 0 - 35 °C, do not expose to direct sunlight.
Packaging	20 Kg Can

⚠ Directions for Use:
For details, please refer to the safety data sheet.
